

# GILES STELFOX

## SHORT BIO

Songwriter, producer and multi-instrumentalist, Giles Stelfox is an indie artist from the South UK who combines dark guitar-driven rock with bright DIY pop production, fused with big ethereal synths and self-produced soundscapes. His lyrical themes cover romance, social issues, and self-reflection turned around in an uplifting and energetic way. His musical style is inspired by artists such as: The 1975, Coldplay, HAIM, Sam Fender, Jack Garratt and Foals. Giles' eye-catching live shows incorporate the art of real-time looping where he creates the sound of a band, playing all the instruments surrounding him whilst only performing solo. After a series of radio plays from BBC Introducing Berkshire for his latest single 'You Talk Dirty With Wine', Giles is taking his attention grabbing shows to audiences across the country in 2020 and beyond.
